

DIY PROJECT GUIDE

Holiday Tree Shelf

HOMEDEPOT.COM/DIY
WWW.HOMEDEPOT.COM/HOLIDAYTREESHelf

Duration: 90 Minutes
Difficulty: Intermediate
Estimated project cost \$20
(not including tools or paint)

MATERIALS

- 2 – 1" x 4" x 6' Common Pine Board
- 1 – 3 Pack Flat Black Heavy-Duty Coat and Hat Hooks
- 1 – 7-Piece Perfect Picture Hanging Kit
- 1 – Pack 3/4" Screws
- 1 – Pack 2" Screws
- 1 – Pack 2" 18 Gauge Galvanized Brad Nails
- 1 – Pack 1 1/4" 18 Gauge Galvanized Brad Nails

TOOLS USED

- Circular Saw
- Brad Nailer
- 1 1/4" Brad Nails
- 2" Brad Nails
- Drill
- 1/8" Drill Bit
- Measuring Tape
- Carpenter's Square
- Clamps
- Pencil
- Safety Goggles
- Sanding Block

MEASURE AND MARK

Using the measuring tape, measure and mark cut lines on the 1" x 4" x 6' common boards according to the cut list. For the shelf supports cut a 45 degree angle across the square piece 3/4" in from each side (see diagram).

CUT

Use a circular saw to make the straight cuts on the common boards.
TIP: Use sanding block to smooth any rough edges.

STAIN OR PAINT BOARDS

Stain or paint boards prior to assembly if desired.

ASSEMBLE SIDES A & B

Assemble side A by overlapping three 8" sections 3/4". Secure with 1 1/4" brad nails. Assemble side B by overlapping two 8" sections and one 7 1/4" sections 3/4". Secure with 1 1/4" brad nails.

PUT SIDES TOGETHER/COMPLETE FRAME

Lay each side on end so that side B butts up against the side A (see diagram below) secure with 2" brad nails. Bend assembly until the bottom of each side is roughly 16 1/2" apart. Place 16 1/2" shelf in place and secure using brad nails through each side.

INSERT SHELVES

Insert top and middle shelf and secure using brad nails (see diagram below).

BUILD BOTTOM SECTION FOR HOOKS

Place 15" back against the bottom shelf so that it's perpendicular to the bottom shelf. Hold in place using brad nails and secure with 2" wood screws (pre drill to avoid splitting wood). Cap each end of 15" back with the shelf supports and secure with brad nails. Screw hooks in place with 3/4" screws centered on 15" back evenly spaced (paint screws to match hooks).

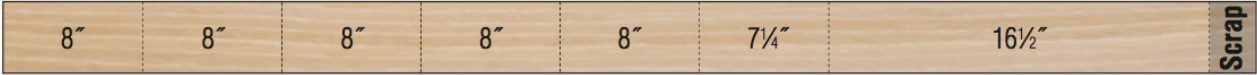

ATTACH HANGING HARDWARE

Attach picture-hanging kit across back of shelf. Hang on existing hook or use included hook. Holds 30lbs.

HOLIDAY TREE SHELF

1" x 4" x 6' Common Board (2)

3 1/2" x 3 1/2" Shelf Supports (2)
